

Dr. Manuel Luciano da Silva

The Friends of Dighton Rock Museum Inc. would like to nominate
Dr. Manuel Luciano da Silva as [the Friends Network]
Volunteer of the Year.

Dr. Manuel Luciano da Silva is an amazing dedicated volunteer. He has contributed in such an outstanding way that his persistence led to the building of the Dighton Rock Museum and the historical preservation of Dighton Rock and its epigraphy. Dr. Luciano da Silva has researched and studied the Portuguese discoveries throughout his lifetime and enjoys more than is expressible the presentation of his findings about the symbols found on the rock. His outreach to inform the community of his findings concerning Miguel Corte Real, the Portuguese Coat of Arms, the Cross of Christ, and the date 1511 have been phenomenal, including many talk shows on radio and television, newspaper articles and presentations for citizen's groups of all kinds, including many school children who have visited Dighton Rock. Bringing people to the Dighton Rock State Park for a view of this historic treasure is his joy. He is a good and loyal friend of Dighton Rock Museum. We appreciate and applaud his dedication and bring his achievements and dedicated volunteerism to you for consideration for Volunteer of the Year.

Sincerely and lovingly submitted by Nancy Possinger for the Friends of Dighton Rock Museum, Inc. and the many visitors to Dighton Rock Museum and Dighton Rock State Park
